

Multi-Fix Screw

Ideal for fitting windows and door frames

- For fixing of window and door frames, timber beams, battens, wooden laths, facades, metal profiles, panels etc. into masonry. Suitable for concrete, solid brick, perforated brick, hollow blocks, natural stone etc.
- T30 T Drive recess to reduce driver wear and prevent camming out.
- Flat countersunk head with 5 locking ribs.
- Deep high/low thread to give high pull-out resistance and waste extraction.
- Serrated V-threads to achieve optimum insertion into all masonry types.
- Complete with **FREE T30 bit** in every box.
