## FIBREGLASS STEP LADDERS

Robust heavy duty step ladders, rot resistant, rigid & stable.

Non conductive fibreglass legs ideal for use where electrical hazards exist. Non slip aluminium treads, heavy duty rubber feet & metal side arms to prevent slips & twists. With additional cross braces for improved strength & stability.

Conforms to trade standard EN131-1:1993 EN131-2:1993  
Maximum capacity 150KG
